### W03-P1: modify w2\_xx.md to fetch images from supabase

## W03-P2: show reviews[0] info when DOM is loaded

The screenshot shows a development environment with VS Code on the left and a web browser on the right. In VS Code, the file `app_42.js` is open, showing a `DOMContentLoaded` event listener that logs the first review item and updates the DOM with its details. The browser shows a page titled "Our Reviews" with a review card for Susan Smith, a web developer. The DevTools console shows the logged object for the first review.

```
const img = document.querySelector('#person-img');
const author = document.querySelector('#author');
const job = document.querySelector('#job');
const info = document.querySelector('#info');

const prevBtn = document.querySelector('.prev-btn');
const nextBtn = document.querySelector('.next-btn');
const randomBtn = document.querySelector('.random-btn');

let currentItem = 0;

window.addEventListener('DOMContentLoaded', () => {
  const item = reviews[currentItem];
  console.log('item', item);
  img.src = item.img;
  author.textContent = item.name;
  job.textContent = item.job;
  info.textContent = item.text;
});
```

Browser console output:

```
Object {
  id: 1,
  img: "https://res.cloudinary.com/diqqf3eq2/image/upl...",
  job: "web developer",
  name: "susan smith",
  text: "I'm baby meggings twee health goth +1. Bicycle rights tumeric chartreuse before they sold out chambray pop-up. Shaman humblebrag pickled coloring book salvia hoodie, cold-pressed four dollar toast everyday carry"
}
```

## W03-P3: implement next button and show the sequence in console.log

The screenshot shows a development environment with VS Code on the left and a web browser on the right. In VS Code, the file `app_42.js` is open, showing a `showReview` function and a `nextBtn` event listener that increments the `currentItem` and calls `showReview`. The browser shows the "Our Reviews" page with a review card for George Chen, a software engineer. The DevTools console shows the sequence of review objects being logged.

```
const showReview = (person) => {
  const item = reviews[person];
  console.log('item', item);
  img.src = item.img;
  author.textContent = item.name;
  job.textContent = item.job;
  info.textContent = item.text;
};

window.addEventListener('DOMContentLoaded', () => {
  showReview(currentItem);
});

nextBtn.addEventListener('click', () => {
  currentItem++;
  if (currentItem >= reviews.length) {
    currentItem = 0;
  }
  // console.log('currentItem', reviews[currentItem]);
  showReview(currentItem);
});

// randomBtn.addEventListener('click', () => {
//   currentItem = Math.floor(Math.random() * reviews.length);
//   showReview(currentItem);
// });
```

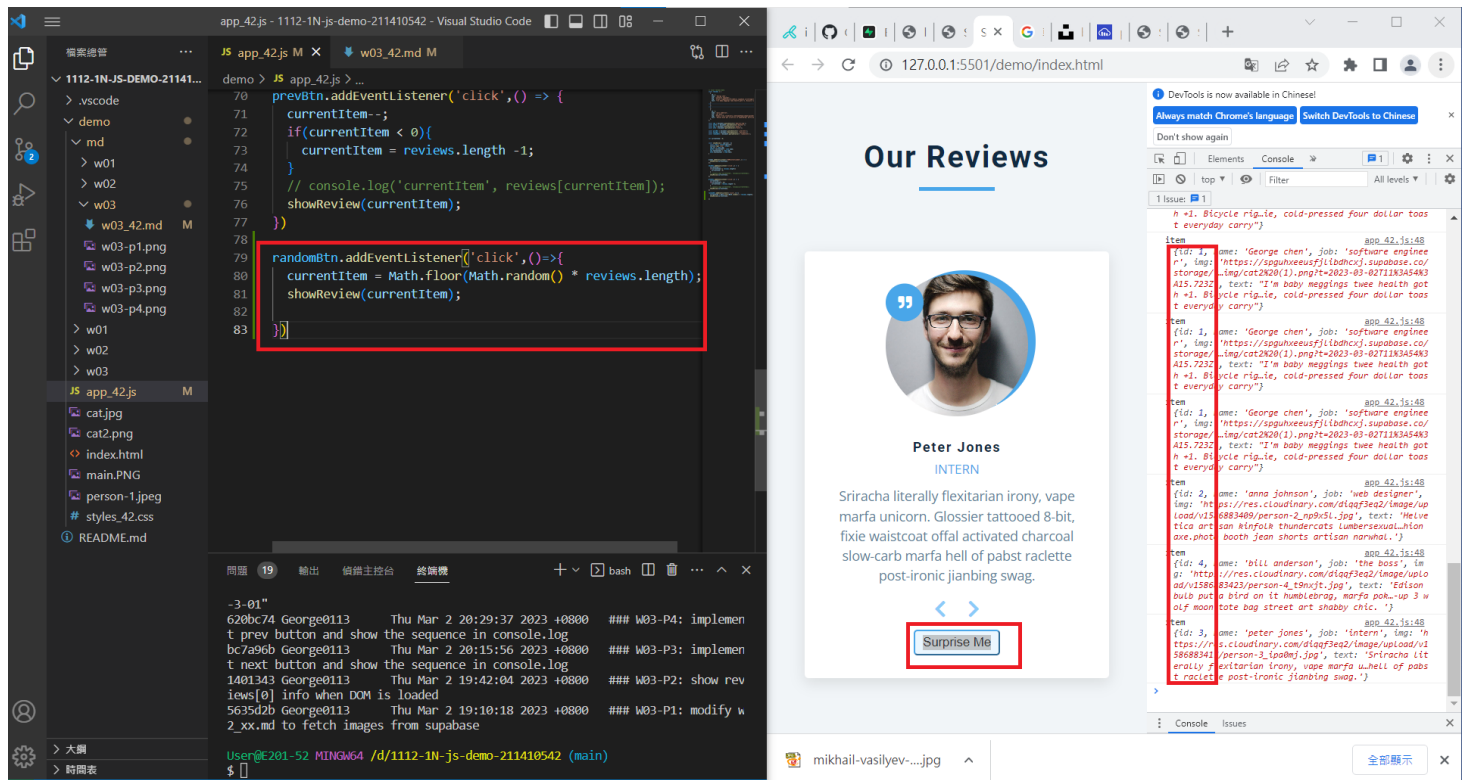

Browser console output:

```
Object {
  id: 1,
  img: "https://res.cloudinary.com/diqqf3eq2/image/upl...",
  job: "web developer",
  name: "susan smith",
